

BID #2009-021  
EXTERIOR PAINTING OF BUILDINGS  
AT BOOTHE PARK

ADDENDUM # 1  
March 18, 2009

The following question was submitted:

Our company attended the mandatory walk-thru for this bid. I would like to get clarification on the handling of the lead based painted surfaces. Are you requiring that the lead be abated by a licensed lead abatement company? Are you requiring that the lead surfaces be handled according to lead abatement procedures? Or is the work to be completed by Lead smart renovators?

The response:

Employees should be trained in Lead Safe Work practices.

Michael Bonnar, Purchasing Agent
